

CONSENSUS BUILDING PROCESS – PAS100 REVISION 2017/2018

Workshops will be held as detailed below. They are an opportunity for all interested parties to attend, raise their views and have a full and frank discussion about each topic, with the aim of achieving general consensus by the end of the workshop. Invitations to these have been sent to all review panel members but are open for anyone who is interested to attend. Booking is essential to ensure room capacity is sufficient

WORKSHOPS & MEETINGS FOR REVIEW PANEL – JANUARY & FEBRUARY 2018

17th January 10.30 – 12.00am

Market based approach – principals. It has been suggested that there should be different standards for compost destined for different markets within PAS100.

17th January 12.30 – 3.00pm

1. *Minimum quality criteria: stability, plant response tests, stones*
2. *Test method for physical contaminants - area methodology especially for film plastic*

31st January 10.30 – 12.00am

Independent sampling

31st January 1.00 – 3.00pm

1. *HACCP or Safety and quality control System*
2. *Input materials – proposal for introducing input criteria to drive improvements in feedstocks*

Review Panel meeting - 7th February 11.00am – 3.00pm

Comments detailed below and summary of previous discussions.

Clause 12.1 - Specify a maximum time-period for how long compost can be stored after testing before it needs to be re-tested in order for compliance with quality parameters to be maintained.

Clause 15.4 – Despatching compost as certified prior to test results being evaluated as compliant (i.e. option for on-site quarantine)

Table A.1 – recommendation or requirement?

Table 2 - the interval between samples requirement
