'Understanding Test Results' Webinar

REAL have recently developed a new webinar, 'Understanding Test Results' for all compost producers under the CCS. The webinar will deliver information on the core PAS 100 test methods. Gaining a better understanding of the methods, and how they are executed in the laboratories, we hope this will help you to better interpret results you receive. The webinar will also provide a platform for discussion on this topic.

The first 'Understanding Test Results' webinar will be held on **Friday 6th November from 10.30-11.30am** and will cost £50pp+VAT. If you are interested in attending the webinar or if you would like any further information, please contact Molly at molly@realschemes.org.uk.

Twitter for Producers

We have recently created a private Twitter account to share scheme news with scheme participants. This Twitter page will be aligned with the 'news' section on our website. All updates, newsletters, and important changes to the Scheme will be shared via our tweets and mirror the emails sent straight to your inbox. Operators are able to be alerted when we tweet through a Twitter notification on the app.

Request to follow us at: [@CCSProducers](#)
