

Latest Update from CCS

- **SQCS Workshop**
- **REA PAS 100 Training Course**
- **Research Hub Survey**

SQCS workshop

We are holding our next workshop on the Safety and Quality Control System (SQCS) requirements in PAS 100:2018 on **Friday 10th December 2021**.

These SQCS workshops provide a platform for discussion around the implementation of the SQCS and compliance with HACCP requirements, comprised of interactive sessions and individual exercises. They are held by REAL and delivered online by a HACCP expert.

The workshop in December will take place between 2 - 4:30 pm. Places will be available on a first come first serve basis. The price per individual is £50 + VAT and there will be a limit on capacity to ensure effective discussion. If you would like to attend or find out more information about this workshop, please email Emma at emma@realschemes.org.uk.

REA PAS 100 Training Course

REAL has liaised with the Association for Renewable Energy and Clean Technology (REA) regarding the following training opportunity:

REA Organics is running 2 x 2 hour webinar courses on **22nd & 23rd of November** focused on the PAS 100, Compost Quality Protocol and REAL Compost Certification Scheme.

You can read about the course contents and book a place on the course [here](#). This event is open to both REA members and non-members.

Research Hub Survey

This is a reminder that the Research Hub survey closes on Friday 29th October. We would value your input into our 2021 Research Hub survey, if you have not yet participated.

The survey will take no longer than 5 minutes to complete and results will be used to understand the level of engagement and perceived benefits, as well as to prioritise areas for further development in relation to communications and administration.

You can access the survey [here](#).

Please email info@realschemes.org.uk if you would like us to add any contacts to our mailing lists. Please also remember to add us to your 'safe' list to avoid updates going to junk mail!
