Latest updates from the CCS

- **NRW's EoW Position Published**
- **Plastic Reporting Factsheet Amendment**

NRW's EoW Position Published

Natural Resources Wales (NRW) has published its new **End-of-Waste Guidance Note for Compost** (EoW position) applicable in Wales, available to download [here](#) in PDF format (not yet published) on their website. This document clarifies when compost produced from source-segregated biodegradable waste is no longer considered waste.

This document will help you understand when compost meets end of waste (Article 6 of the Waste Framework Directive) in Wales)

All scheme participants in Wales will have been sent the new EoW position by email directly by NRW.

Please note that while CCS discusses with NRW the implementation of this EoW position into the scheme, **audits will continue to be conducted against the Compost Quality Protocol (CQP).**

Plastic Reporting Factsheet Amendment

Last week, CCS published and circulated a guidance document regarding the reduced plastic limits introduced by the Compost Resource Framework and the consequential reporting of plastic levels in all test reports issued by the approved laboratories.

The guidance outlines the process for requesting revised test reports if the reduced plastic limit should not be applied to your process due to a valid exemption, such as registration to use RPS 317 or supplying as a product in Wales or Northern Ireland.

We have reissued this guidance [here](#) as an amended second version with an important change to the process for requesting a revised test report if registered to use RPS 317. The updated process now requires scheme participants to email
